

What's all the sniffing about?

A new sport called K9 Nose Work® (K9NW) has taken the dog world by storm! Combining all the things dogs love to do, sniff, search, hunt, eat, and play! This is truly a sport for everyone. All ages, and training levels and something that *every* dog can do and excel at. Just for fun or compete for titles from the National Association of Canine Scent Work, LLC®.

The three competitive levels of Nose Work are as follows:

- NW 1—Searching only for Birch; able to reach the source of the odor; not required to formally alert. (Note that level NW1 is the entry level for K9NW, where every dog starts competition.)
- NW 2—Searching for Birch and Anise; may not be able to reach source of odor
- NW 3—Searching for Birch, Anise, Clove; may not be able to reach source; must have formal alert

There are four elements involved in any Nose Work Trial—container search, interiors, exteriors, and vehicle search.

Want to give it a try?

One Happy Dog is hosting three -2 hour
